01 - ABOUT

WHO
I AM

I'm Youssef Mohamed, a passionate .NET Developer and Computer Science student at the Egyptian E-Learning University (EELU). Currently in my third year, I specialize in building scalable web applications and RESTful APIs using the Microsoft .NET ecosystem.

My expertise spans backend development - from designing efficient database schemas with SQL Server to crafting clean data-access layers with Entity Framework and LINQ - paired with frontend fundamentals to create complete full-stack experiences.

BACHELOR OF COMPUTER SCIENCE

EGYPTIAN E-LEARNING UNIVERSITY (EELU)

Grade 3 (Current) Computer Science
